Dear Mike;

The 2007 Teulon *Progressive Agriculture Safety Day*™ has come and gone and it was again a huge success. There were about 140 Grade 5 & 6 student participants from Balmoral, Inwood and Teulon and over 60 volunteers who helped make this day a great success.

The Teulon Farm Safety Committee would like to thank Wally Makowski from Safety Services Manitoba for coming out and presenting a station on ATV Safety. Wally has asked that we send any comments with regards to his presentation to you Mike. Many of the evaluations we received had very positive comments with regards to the ATV station. Wally definitely made an impact on these participants with his presentation. It was great having him there that day.

The Teulon Farm Safety Day Committee is dedicated to providing farm and rural safety education. Helping children learn about the hazards associated with living on and off the farm is important in promoting a safe environment for them and their families. Having Wally there to promote the safe use of an ATV was so beneficial to the students at this event.

Enclosed you will find a group photo of the participants of this year's safety day. Once again, thank you for your generous support of this year's Teulon *Progressive Agriculture Safety Day*™. We look forward to working with your organization in the future.

Yours Sincerely;
2007 Teulon Farm Safety Day Committee

**"Making farm and ranch life safer and healthier for
children through education and training."**
