

Do you want to lay the cornerstone for an injury-free workplace?

SSM can help you create a customized Safety Management System to do just that!

SSM's customized safety management system will help you manage risk, set goals and measure performance in health and safety in your workplace.

**Our 3-Step Process ensures we understand your risk assessment needs and regulatory environment. We then deliver a safety management system that is user-friendly, compliant and tailored to your organization:**

1. **Initial meeting** – to orient our consultants to your organization, its risk management needs and legal compliance requirements.
2. **Site tour and review** – to understand your workplace, from front-line activities to documentation.
3. **System development** – we work with you to customize our safety management program and apply it to your workplace.

Starting at only **\$799**, you will receive a user-friendly, comprehensive safety management program including:

- Customized safety manual
- Filing system
- Ongoing coaching and knowledge transfer
- Toll-free support line

Preventing loss, protecting people since 1964
