

The Assembly of Manitoba Safety Professionals (AMSP) advanced training and conference day was built by safety professionals, for safety professionals just like you!  
Join us for a day of learning right here in our own province!

## THE ASSEMBLY OF MANITOBA SAFETY PROFESSIONALS

Built by safety professionals, for safety professionals

Tuesday, January 20, 2015

Victoria Inn Hotel and Convention Centre | Winnipeg, Manitoba

This learning day is being created to meet the needs of safety and health professionals. The AMSP will deliver a full day of intensive training to a limited audience, allowing us to present specialized, focused and in-depth information. Join us for keynote and plenary presentations by:

**Eldeen Pozniak, *7½ things that Safety Professionals Can Do to Save Lives and Bring Value to an Organization***

Holding designations as a CRSP, CHSC, CHSMSA, a Full Member IIRSM and a Chartered Member of IOSH, Eldeen is a well-known safety speaker with a diverse educational and experience-based background. Her sense of humor and down-to-earth approach are combined with a timely, well-researched and insightful message that resonates, no matter the audience.

**Dr. Chuck Pettinger, *The Four Safety Truths***

Chuck has more than 20 years of experience designing, implementing and evaluating safety improvement initiatives. His major interests include developing large-scale corporate change initiatives, assessing industrial safety cultures and customizing Safety Leadership Summits.

**Jamie Hall, *SAFE Work Manitoba***

As the Chief Operating Officer (COO) of SAFE Work Manitoba, Jamie looks forward to being a part of strengthening and building on the existing safety network and programming in the province in order to help establish Manitoba as a leader in occupational safety and health. Jamie also has brought his knowledge of safety and health to the not-for-profit sector, serving for over ten years on the Board of Directors of Safety Services Manitoba, with five years as Chairperson.

Jamie's talk will focus on the 2013 Fair Compensation Review, "the Petrie Report," which recommends that Manitoba develop a province-wide safety certification program. As SAFE Work Manitoba considers this recommendation this is an opportunity to contribute to what safety certification in Manitoba might include.

In addition to these exciting and informative keynotes and plenary sessions, please join us for:

- An exploration of emerging issues and trends in safety and health, including nanotechnology, mental health at work, and safety and technology
- SAFE Work on Wheels Demonstration
- Networking with like-minded safety and health professionals, passionate about safety and health in Manitoba

The current agenda contains 6 technical hours which may be eligible for BCRSP CM points. See the BCRSP website ([bcrsp.ca](http://bcrsp.ca)) for CM point criteria.

Register at [safetyervicesmanitoba.ca](http://safetyervicesmanitoba.ca) or call 204.949.1085 for more information.
