

GHS & WHMIS 2105 TRAIN THE TRAINER

Course location: SSM and on-site

Class size: 12 maximum

Course duration: 1 day (6-8 hours, depending on class size)

Classroom and practical

LEGISLATIVE STATEMENT

Manitoba Regulations Part 35

Training

35.3(1) an employer must ensure that a worker who works with or near a controlled product or performs work involving the manufacture of a controlled product receives training in the following.

- a) The content required to be on a supplier label and a workplace label and the purpose and significance of the information on the label;
- b) The content required to be on a material safety data sheet and the purpose and significance of the information on the material safety data sheet;
- c) Procedures for safely storing, using and handling the controlled product; etc...

COURSE DESCRIPTION

This course is designed to fulfill a company's legal obligations by familiarizing every employee with the Global Harmonized System /Workplace Hazardous Material Information System 2015. This course covers components and compliance of GHS/WHMIS and related legislation, labeling hazardous materials and using material safety data sheets and safety data sheets.

Complimented with written and practical skill assessments throughout the course to ensure thorough understanding of principles and practices, the GHS/WHMIS 2015 Train the Trainer provides students with the most modern technical knowledge and resource material to deliver a confident, competent, and professional GHS/WHMIS course.

Documentation will be provided to the student to satisfy due diligence and local regulation compliance.

This course meets the criteria for accepted practices in OH&S training (ANSI Z-490. 1-2001), the highest standard in the industry.

LEARNING OUTCOMES & COURSE AGENDA

- Module 1 – Understanding GHS and WHMIS
- Module 2 – Duties and Responsibilities
- Module 3 – Labels
- Module 4 – Material Safety Data Sheet/Safety Data Sheets
- Module 5 – GHS Pictograms/WHMIS symbols
