20/20 Safety Vision

When you walk into a workplace, what do you see? This year's conference, *20/20 Safety Vision*, serves as a helpful reminder to keep our eyes focused on safety on the job, at home and in the community.

Our program is designed to bring your safety vision to the next level. With the experience and know-how you bring to the event and the exciting new ideas and philosophies you'll learn at the SSM OHS Conference, your safety vision will undoubtedly be 20/20.

Who Should Attend?

20/20 Safety Vision is a must-attend event for anyone whose job involves responsibility for safety, health and wellness. This year's lineup of topics offers insights and tips for senior managers, supervisors, union safety representatives, lead hands, occupational health and safety specialists, safety engineers, loss and risk managers, human resource managers, contractors and consultants.

This year we're pleased to host the sixth annual Assembly of Manitoba Safety Professionals – an advanced safety and health training and conference day specifically designed to meet the needs of Manitoba's safety professionals. We're looking forward to another full day of topics, round-table discussions and speakers.

Why You Should Attend

The SSM OHS Conference brings together over 550 delegates who play a role in health and safety in Manitoba and beyond. This is your chance to connect, share ideas and learn with your fellow safety leaders.

- Choose from 24 workshop presentations, selected to help you build a safety culture
- Hear keynote speakers Brandon Schroeder, Orlando Bowen, Paul Huschilt and Dr. Michael Wahl (see their brief bios below and visit the website for more detailed information)
- Explore the latest in health and safety products and services with over 45 exhibitors in our trade show
- BCRSP has previously awarded CM points for this event. The current agenda contains 11 technical hours and may be eligible for BCRSP CM points. See the BCRSP website (bcrsp.ca) for CM point criteria. Please note: The Assembly of Manitoba Safety Professionals includes 6.5 additional technical hours.

Meet Our Keynote Speakers and Master of Ceremonies

Orlando Bowen

As a professional athlete, Orlando's experiences on the field taught him the importance of harnessing momentum and working passionately together as a team to pursue shared objectives. He shares how to establish the foundation for high performing teams that can withstand turbulent times, embrace change and celebrate team contributions.

Paul Huschilt

As a professional speaker, actor and satirizer rolled into an unusual ball of corporate messaging and humour, Paul has been described by many as indescribable. Recently inducted into the Canadian Speaking Hall of Fame, Paul is one of the most unique voices in the speaking industry and presents with energy, passion and fun.

Brandon Schroeder

Brandon's raw emotion and relatable nature commands the resonance of his message, Believe In Safety. One of the most valued aspects of Brandon's story is the full disclosure of his pre-accident mindset. He discusses the realities of the safety culture on the job, how this led him to that fateful day and how this accident changed not only his life, but the lives of those that love him.

Dr. Michael Wahl

Mike has over 20 years of experience in the field of health and wellness working in athletics, academics and the private sector. He has coached thousands of business leaders and blue-collar workers to better health and has set up wellness programs used around the world in some of the most remote and challenging conditions.

Dean Jenkinson, Master of Ceremonies

Dean Jenkinson is a Winnipeg-based comedian who's appeared on CTV's Comedy Now, CBC's Winnipeg Comedy Festival and The Royal Canadian Air Farce. Dean's a frequent guest on CBC Radio's The Debaters, and this year he assumes the role of Artistic Director of the Winnipeg Comedy Festival.
